WRITE UP

Often regarded as the music video king in the Afrikaans music industry, Christian Wolf is so much more than that. Having recently branched out into television and commercial work, Christian's star is beginning to shine brighter and brighter with each production he does. He has an extreme eye for detail and with a meticulous focus on lighting, he has mastered a variety of amazing looks, mostly on such limited budgets, that other experienced DOP's would run for cover. But that is just what Christian does, he delivers more than what should mortally be capable. If you don't believe us, just go have a look at his work..
