WRITE UP

JT Ferreira is a recent graduate from the Open Window Institute for arts and digital sciences with a BA Degree in Film. Studying did not stop him working, as during his degree, he started freelancing as a Camera operator and an editor for various clients. As a result of doubling up as a full time film student and a full time freelancer, he was able to develop a skill of working under pressure whilst maintaining an excellent eye for attention for detail. This gave JT a head start in a career that has seen him work on television shows, music videos, advertisements, corporate videos, short films and wedding films. The guy is a pocket rocket of energy and commitment Having JT on your set is like having two extra sets of arms and legs. He is a hard worker and a fast learner who is making a name for himself at a speed of light.
