## WRITE UP

Neo is a creative born and raised in Johannesburg. Since she was a young girl, she always found herself creating. Whether she was taking part in drawing competitions or being the family's photographer at age 12. She is calm and collected, with an eagerness and energy to perform at her best. She uses her creativity not only on the timeline but holistically in order to meet deadlines in the most efficient ways possible. After graduation from AFDA in 2018, Neo secured her first job in the Promo department at Bladeworks where she worked on Bollywood movies, drama series and foods shows. She then moved to Afropulse Media where she learnt more about writing copy and directing graphics and audio to create more engaging promos. Recently, Neo has worked on an international food and travel show as an asseby editor and offline editor. Neo is ready to take on more projects and to grow in the industry.
