## WRITE UP

Sarel van Vuuren is a Sound Mixer with countless credits under his belt. From big international drama productions and commercials, to live music recordings and guerilla team documentaries, there is nothing that can throw this guy off his game. Just as comfortable as a location sound mixer or a post mixer in his own studio, it doesn't matter the location or situation, as Sarel goes beyond the call of duty to get the job done. He takes immense pride in his craft and that reflects in the international client list he has built up over the years.
