## WRITE UP

Valen'tino Mathibela is a well known and much respected director in the world of television. Recently back from another season filming Survivor SA, she is not afraid to mix things up. Equally as comfortable in the jungle, as she is in the studio, Valen'tino has a chameleon-like ability to fluidly switch between genres. This might stem from the fact that she is also an actress, voice over artist and DJ. Did we forget to mention that she is also fluent in 10 languages, yes that's right, 10!
